

LIGHTER | STRONGER | SMARTER

RISER SEALING MANDREL

FOR PEACE OF MIND

- Encases and protects safety critical equipment from crushing damage
- Allows hydrocarbons to be safely diverted away from the rig floor
- Bespoke design adaptable in length and completion configuration
- Clamps and seals onto standard tubulars and umbilicals.

GASTIGHT UP TO 500 PSI (18 5/8" OD DESIGN)

Constructed from extremely tough and chemically resistant polymers

EASE OF INSTALLATION THROUGH THE USE OF PRE-LOCK MECHANISMS AND MODULAR DESIGN

Integrated fastener retainment preventing dropped objects

ADAPTABLE DESIGN

Suits different size riser/
umbilical configurations

CONTINUOUS AXIAL SEAL DESIGN

Improves reliability
