

## HUMIDUR® FP NON-SKID SYSTEM

---

universal non-skid system for onshore and offshore assets

**HUMIDUR.**

Let's face corrosion.

# Designed to provide all the technical benefits of Humidur® FP

## Non-skid system

The Humidur® FP non-skid system is designed to provide all the technical benefits of Humidur® FP with a high-quality non-skid covering.

- ✓ CAP 437 (Civil Aviation Authority standard) approved protection for all offshore helidecks.
- ✓ Long lasting durability for high traffic on onshore and offshore assets.

## Where to use Humidur® FP non-skid system

Humidur® FP non-skid system is being universally utilized onshore and offshore throughout the world.

- Full refurbishment projects
- Safety anomalies
- Spot repairs
- Cosmetic touch up
- Cold bonding plate repairs

# KEY BENEFITS

# TECHNICAL BENEFITS

## CAP 437

Civil Aviation Authority non-skid standard for helidecks.

## No primer

One-coat system with distribution of aggregate on top

## High humidity

Applicable in RH up to 95%

## Solvent-free

Modified 2-pack epoxy coating

## Surface tolerant

Applicable on a large range of materials (steel, concrete, ...)

## Non-flammable & non-explosive

100% solids, 0% flammable solvents. Flash point >100°C

## Environmentally friendly

No VOC's, no coal tar, no heavy metals, no isocyanates

## Minimal preparation

All minimal surface preparation standards

## Adhesion values

> 20 MPa

## Application

Available for spray, brush or trowel application

## Salt levels

Up to 60 mg/m<sup>2</sup>

## Wide service temperature range

-35°C up to +150°C

## Cures under water

Coating system continues to cure underwater

## Colour

Any colour on request

## Warranty

15-30 years product warranty

# OPERATIONAL BENEFITS

## Minimal preparation

Ability to work on walkways and helidecks without the need for full encapsulation blasting.

## Productivity

Increased productivity allows for helidecks to be completed with minimal impact on the flying schedules.

## Cold bonding

Strong adhesive forces of Humidur® offer an easy way to glue doubler plates on top of perforated surfaces.

# CUSTOMER BENEFITS

## What are the main benefits for our customers?

- High-quality, long-lasting product
- Reduced man hours (testimonial cases can show a 50% reduction)
- Large cost savings compared to traditional coating systems
- Reduced operational downtime at the work site location
- Increased productivity

# Humidur® FP non-skid system

## Aesthetic finishing

Humidur® TC can be used to add markings and lines on the finished non-skid surface.

## Case studies

Various case studies can be supplied upon request.
